Scaffold Training – Wherever, whenever.

Scaffold User Training

This two-hour training class is offered at your site or at your local Safway branch.

Who should attend this training?

The class is designed for those who perform work while on a scaffold. It is not intended for those erecting scaffolds.

What is taught in the class?

Through classroom training, attendees will receive an overview of the latest OSHA regulations for those working on scaffolds.

What materials are provided?

- Wallet card of attendance

Scaffold Erector Training

This two-day training class is offered at your site, at your local Safway branch, or at the Safway Training University in Waukesha, Wisconsin.

Who should attend this training?

The class is designed for those involved in erecting, disassembling, moving, operating, repairing, maintaining, or inspecting a scaffold.

What is taught in the class?

Through classroom and hands-on training, attendees will learn about:

- Surfaces and foundations
- Scaffold bases
- Scaffold components
- Scaffold platforms
- Scaffold access
- Guardrails and toeboards
- Bracing, tying and guying
- Scaffold inspection and dismantle

What materials are provided?

- Attendee reference binder
- A copy of OSHA regulations
- Wallet card of attendance

Scaffold Regulation

This 4–6 hour training class is offered at your site, at your local Safway branch or at the Safway Training University in Waukesha, Wisconsin.

Who should attend this training?

The class is designed for safety personnel, experienced erectors and those who inspect scaffolds and ensure that scaffolds are OSHA-compliant.

What is taught in the class?

Through classroom and scaffold inspection training, attendees will learn about OSHA regulations relating to scaffold requirements.* This class does not cover scaffold erection techniques.

What materials are provided?

- A copy of OSHA regulations
- Wallet card of attendance

*Sectional, Systems™ or Suspended focus available

Safway continues the tradition of scaffold safety excellence by offering a **variety** of training options for various skill levels.

Product Videos

Safway offers product DVDs that feature a specific product line, identifying the components and showing the actual erection and dismantle of the scaffold.

- Systems™ Scaffold (25 min.)*
- Sectional Frame Scaffold (26 min.)*
- Rolling Towers (14 min.)
- Tube & Clamp Scaffold (26 min.)
- SafMax® Frame System (23 min.)*
- SL Frame System (26 min.)
- Skysafe® Modular Platforms (27 min.)*

*Select videos are also available in Spanish.

User and Erector Training CD

Our interactive CDs includes Systems™ and Sectional Scaffold Safety Training for Users and Erectors.

- Can be viewed individually or in a group setting to allow for discussion
- Includes chapter quizzes and a final exam
- Receive a Certificate of Completion with a score of 85% or higher.

Why train with Safway?

We are the only scaffold company with its own Training University. We have trained more than 34,000 valued customers, including OSHA employees, and over 17,000 Safway employees throughout the United States and Canada.

All training, videos and materials are designed in compliance with OSHA regulations and are taught by experienced personnel.

Call for specific class dates or visit safway.com/services for more information.
